Divyam Prakash

Full Stack Developer | Java | Spring Boot | Angular | React.js | Next.js

9905291804 • prakashdivyam34@gmail.com

PROFESSIONAL SUMMARY

Full Stack Developer with **2 years of professional experience** in building and maintaining web applications across frontend and backend technologies. Hands-on experience with **Java, Spring Boot, RESTful APIs, Angular, React.js, Next.js, JavaScript, SQL**, and modern UI libraries. Experienced in developing reusable components, implementing business logic, integrating APIs and databases, debugging production issues, and collaborating with frontend, backend, QA, and cross-functional teams.

PROFESSIONAL EXPERIENCE

LTI Mindtree — Software Developer / Full Stack Developer

2 Years | Client Project Experience

Project 1: Java Spring Boot – Backend Developer

- Developed and maintained **RESTful APIs** using Java and Spring Boot to support application business requirements.
- Implemented business logic using structured controller and service-layer architecture for maintainable application flow.
- Integrated backend services with databases and handled data processing with focus on secure and efficient operations.
- Collaborated with frontend and QA teams to troubleshoot defects, resolve integration issues, and improve application reliability.
- Applied coding, debugging, Git-based version control, and development best practices throughout the project lifecycle.

Project 2: Angular – Frontend Developer

- Developed responsive and user-friendly web interfaces using **Angular** and **Angular Material**.
- Built reusable components, dynamic forms, validations, and UI workflows to support business requirements.
- Integrated frontend applications with backend REST APIs and ensured reliable end-to-end data flow.
- Implemented consistent layouts and reusable UI patterns using Angular Material components.
- Investigated and fixed UI defects based on user and tester feedback while improving application usability and performance.

Eximietas Design — Software Engineer Intern

8 Months

- Developed responsive web applications using **React.js, Next.js, Material UI (MUI), Ant Design, Tailwind CSS**, and JavaScript.
- Used GitHub for source control, code collaboration, and team-based development.
- **Hiring Portal:** Developed a hiring portal using RESTful APIs with workflows for departments including HR and Finance. Used Next.js, Tailwind CSS, Material UI, and Jest, achieving approximately **85% test coverage**.
- **Timesheet Application:** Developed a web application using React.js, Ant Design, and Tailwind CSS for recording daily activities and project status and supporting management monitoring.

TECHNICAL SKILLS

Languages	Java, C++, JavaScript, SQL
Backend	Spring Boot, RESTful APIs
Frontend	Angular, React.js, Next.js, HTML, CSS
UI Libraries	Angular Material, Material UI (MUI), Ant Design, Tailwind CSS
Database	MySQL
Tools	Git, Git Bash, GitHub, Jest

EDUCATION

Silicon Institute of Technology — Bachelor of Technology, Computer Science and Technology | CGPA: 8.74

Dhanbad Public School — Class 12: 81.3% | Class 10: CGPA 10

ACHIEVEMENTS

- Achieved a maximum rating of **1694** on CodeChef (3-star), as of Starters 67.
- Solved **150+ problems** on LeetCode.
- Solved **100+ problems** on GeeksforGeeks.

CERTIFICATIONS

• Problem Solving in Data Structures and Algorithms — Syllogistic

• M.E.R.N Stack — Syllogistic

• NPTEL — Social Networks, IIT Ropar

• Web Development (Full Stack) — Udemy
